envelope 100 of letters

My dear and most Reverend Friend,

Some time ago I learned that a rare discovery was made in Southern India. Some coolies when demolishing some old ruins unearthed a few collections of very old coins all of lead of the Andhra Dynasty of Southern India.

Knowing how much you would be interested in these coins I have through some particular friend been happy enough to get a full collection (96 in number) of these tiny little coins, and now I hasten to send them to you as an addition to your valuable collection.

I shall not write more just now as I am to preach Six Retreats successively to the nuns of the Six Convents in my Diocese. C'est un travail que j'aime beaucoup et vous savez. Bonne nuit.

fatigatur quando labor amatur. That kind of work  
is among all work for me: Laborum dulce lenimen.

Je ne finirai point cependant sans vous offrir par  
anticipation mes vœux affectueux de joyeuses fêtes  
de Noël et un bon et agréable nouveau an, gelyk de  
trane Oudgelingen zeggen.

Believe me with kindest regards and deep  
respect

Yours affectionately in J. L.  
+ L. L. Peckmans. OZ
